

PID Eng & Tech, SL, in its desire to guarantee the provision of the service it offers and being aware of the importance of the environment, has decided to establish implement a **Quality and Environmental Management System** based on the requirements of the standards **UNE-EN ISO 9001: 2015 and UNE-EN ISO 14001: 2015**, for the activities of:

DESIGN, CONSTRUCTION, OPTIMIZATION AND COMMERCIALIZATION OF SCIENTIFIC EQUIPMENT AND PLANTS OF PHYSICAL-CHEMICAL PROCESS AT LABORATORY OR PILOT SCALE

Quality and Environmental Management System is the one that guides us towards an improvement that has the purpose of satisfying the customers and the absolute control of the activities developed that may have an impact on the environment, within the possibilities of the organization.

QUALITY AND ENVIRONMENT POLICY of PID Eng & Tech, S.L. It is based on the following commitments:

- Management's commitment to seek efficiency and excellence in internal management, integrating economic, technical, environmental, and social aspects and, in general, all those that contribute to sustainability and continuous improvement of the performance and effectiveness of Integrated Management System.
- Commitment to direct our activities towards the creation of value and economic growth based on the profitability of investments, reducing the costs of Non-Quality, preventing the appearance of problems caused by non-compliance with the requirements, as well as defective services.
- Commitment to fulfill customer requirements to achieve their satisfaction, being able to know their needs and expectations, working at all times with professionalism, ethics and transparency.
- Commitment to comply with all the requirements, whether legal, contractual or otherwise, that are applicable to us because of our activity, and consolidate the trust of clients and stakeholders in our organization.
- Commitment to effectively control all our activities, and to carry out our work within a management environment that ensures continuous improvement in our processes, in our methods of action and in our relationships with stakeholders, through the establishment, compliance and periodic review of our quality and environmental objectives, and the use of the best technologically available economically viable.
- Commitment to protect the environment, through actions aimed at the prevention of any type of contamination that could be caused by operations due to our activity, and the sustainable use of resources.
- Commitment to collaborate with our suppliers, fostering their involvement in environmental aspects, quality and prevention of occupational risks in common processes.
- Commitment to promote communication, understanding and dissemination of our Quality and Environment Policy within the organization and available to relevant stakeholders.

Ignacio García
General Manager
